Continuing Resolution Keeps Government Operating through April 2017

On December 8, the House passed H.R. 2028, the Energy and Water Development and Related Agencies Appropriations Act. The legislation includes a continuing resolution (CR) to keep the government funded through April 2017, and thus avoided a federal government shutdown on December 9 when the previous CR (P.L. 114-223) expired (see <u>The Source</u>, 9/30/16).

The measure preserves the \$1.07 trillion in discretionary spending caps and funds most of the government at the spending rate established by the Consolidated Appropriations Act, more commonly known as the FY2016 omnibus bill (P.L. 114-113). The CR includes \$872 million for the 21st Century Cures Act, which Congress approved on December 7 (see *The Source*, 12/9/16).

The legislation also includes \$170 million to address water contamination in Flint, MI. That amount includes \$15 million for maternal and child health programs, \$15 million for the Healthy Start Initiative, and \$15 million for childhood lead poisoning prevention programs.

Congress completed work on the FY2017 Military Construction, Veterans' Affairs, and Related Agencies spending bill (P.L. 114-223) in September (see *The Source*, 9/30/16). However, work on the following FY2017 spending bills remains outstanding: Agriculture, Food and Drug Administration (FDA), Rural Development, and Related Agencies (see *The Source*, 5/20/16); Commerce, Justice, Science, and Related Agencies (see *The Source*, 5/20/16); Commerce, Justice, Science, and Related Agencies (see *The Source*, 5/27/16); Defense (see *The Source*, 6/17/16); Financial Services and General Government (see *The Source*, 7/8/16); Labor, Health and Human Services, Education, and Related Agencies (see *The Source*, 7/15/16); Legislative Branch (see *The Source*, 5/20/16); State, Foreign Operations, and Related Programs (see *The Source*, 7/15/16); and Transportation, Housing and Urban Development, and Related Agencies (see *The Source*, 5/27/16).

The charts below summarize the current FY2016 and recommended FY2017 funding levels for programs important to women and their families.

Legislative Branch

On May 19, the Senate Appropriations Committee approved S. 2955, the FY2017 Legislative Branch spending bill. According to the committee <u>report</u>, the bill would allocate \$3.021 billion in FY2017. This amount is \$23.481 million over FY2016 and \$251.565 million below the president's request.

The House Appropriations Committee approved its version of the legislation, H.R. 5325, on May 17. According to the committee <u>report</u>, the spending bill would provide \$3.482 billion in FY2017. This amount is \$73 million over FY2016 and \$152.473 million below the president's request.

The House bill contains a provision to provide baby changing stations in bathrooms in House office buildings and the Capitol, as well as access to parking for pregnant congressional staffers.

Military Construction, Veterans' Affairs, and Related Agencies

The CR enacted in September (P.L. 114-223) included the FY2017 Military Construction, Veterans' Affairs, and Related Agencies spending bill (see <u>The Source</u>, 9/30/16).

The bill provides \$82.5 billion in discretionary funds for FY2017. The amount includes funding for the Department of Veterans Affairs (VA), the Veterans Health Administration, as well as military construction and family housing projects at the Department of Defense.

The legislation permits funding within VA Medical Services for fertility counseling and treatments for a covered veteran or his or her spouse.
